

A Sustainable Development Guide for Canada's Museums

Acknowledgements	Page 7
Foreword	Page 9
Introduction	Page 11
Chapter 1: Sustainable Development	Page 14
1. What is sustainable development?	Page 14
▪ Eco-museology	
2. Why integrate sustainable development into museum operations?	Page 17
3. How to integrate sustainable development into museum operations?	Page 18
A. Diagnosis	
▪ ISO 14000	
▪ Guide SD 21000	
▪ Verteego	
▪ University Leaders for a Sustainable Future	
B. Sustainable development policy	
▪ What is a sustainable development policy?	
▪ What are the advantages of having a sustainable development policy in place?	
▪ How to implement a sustainable development policy?	
▪ How to promote your sustainable development policy?	
C. Implementing a sustainable development policy	
▪ Integration into operations	
▪ Commitment	
4. Sample SD policies	Page 22
▪ Environment Canada's Biosphere	
▪ Vancouver Aquarium	
▪ The British Museum	
▪ Royal Botanic Gardens, Kew	
▪ American Museum of Natural History	
▪ Oak Hammock Marsh Interpretive Centre	
5. References and tools	Page 28
Chapter 2: Human Resources	Page 29
1. Being a responsible employer	Page 30
A. Providing a healthy, safe workplace	
B. Equity in hiring and working conditions	
C. Informing, training and developing your staff	
2. Welcoming new employees	Page 31
3. SD implementation team	Page 32
A. Committee structure	
B. Committee mandate and roles	
C. Operation and implementation	

4. Checklist and committee example	Page	34
Checklist: Orientation package for new employees		
5. References and tools	Page	36
Chapter 3: Management	Page	37
1. Electronic document management policy	Page	38
2. Printing and paper document policy	Page	38
• Photocopiers		
3. Office lighting	Page	39
4. Greening offices	Page	39
5. Disposal of confidential documents	Page	39
6. References and tools	Page	40
Chapter 4: Exhibition Material	Page	41
1. Designing an exhibit	Page	42
• Temporary exhibits		
• Travelling exhibits		
2. Materials and finishes	Page	43
A. Wood		
• Engineered wood		
• Rapid regrowth wood		
• Perdure		
• Lauan		
• MDF		
B. Cardboard		
C. Green fabrics		
D. Formaldehyde-free materials		
E. Low or no-VOC adhesives		
F. Low or no-VOC paints, stains and sealants		
G. Recycled plastics and glass		
• Lexan		
H. Plastics with a natural compound base		
I. Carpets and floor coverings		
3. Graphic design and sustainable signage	Page	47
A. Inks and printing processes		
B. Printing media		
4. End of exhibition: Materials disposal	Page	47
5. References and tools	Page	48

Chapter 5: Information and Communications

Technology

1. The various technologies	Page 51
A. Web 2.0	
B. Web 3.0	
C. Webcasting	
D. RSS format	
E. Blogs and wikis	
F. Podcasts	
G. Audio guides and video guides	
2. ICT and museum operations	Page 52
A. External communications	
▪ Virtual cards	
▪ Meetings	
▪ Telecommuting	
B. Reducing paper consumption	
3. ICT as an educational tool	Page 53
A. Interactive terminals	
B. Virtual terminals	
C. Distance learning	
4. Examples of ICT use in museums	Page 54
5. References and tools	Page 56

Chapter 6: Events and Room Rentals

1. Food services	Page 59
2. Logistics	Page 61
3. Waste management	Page 61
4. Quick reference	Page 61
5. References and tools	Page 62

Chapter 7: Responsible Procurement

1. What is a responsible procurement policy?	Page 65
2. How can you implement a responsible procurement policy?	Page 67
3. Examples of responsible procurement policy	Page 68
4. What can you do with surpluses?	Page 69
5. Gift shop and/or boutique management	Page 69
6. References and tools	Page 70

Chapter 8: Waste Management	Page 71
1. Waste characterization	Page 72
2. Reduce, reuse, recycle and reclaim (4Rs)	Page 73
A. Reduce at the source	
B. Reuse	
C. Recycle	
D. Reclaim	
3. Electronic components and devices	Page 75
4. Construction materials	Page 76
5. Restaurant waste	Page 77
6. References and tools	Page 78
Chapter 9: Hazardous Materials Management	Page 80
1. What is a hazardous material?	Page 81
• WHMIS	
2. What is a controlled product?	Page 82
3. Disposal of hazardous materials	Page 83
A. Paint	
B. Oils	
C. Solvents	
D. Batteries	
E. Compact fluorescent and neon lights	
4. References and tools	Page 84
Chapter 10: Property Management	Page 85
1. Buildings	Page 86
A. New construction	
B. Renovation	
• Heritage buildings	
C. Site layout and gardens	
D. Maintenance	
2. Air quality	Page 90
A. Sources of pollutants	
B. Greening indoor spaces	
3. Water management	Page 92
A. Water consumption	
B. Using rainwater	
C. Site layout	
• Green roofs	
D. Water-saving devices appliances and equipment	
4. Energy Management	Page 93
A. Lighting	
B. Electricity, cooling and heating	
• Geothermics	
• Energy accumulator	

C. Energy efficiency programs	
D. Green energy	
• Solar energy	
5. Site accessibility	Page 95
6. Examples	Page 95
7. References and tools	Page 99
Chapter 11: Transportation	Page 101
1. Employee transportation	Page 102
A. Getting to work	
B. Business travel	
2. Automobile fleet purchasing and management	Page 103
3. Access to your institution	Page 104
4. Deliveries and collections transport	Page 104
5. References and tools	Page 105
Chapter 12: Funding	Page 106
1. Government funding	Page 107
A. Federal	
B. Provincial	
C. Municipal	
2. Private subsidies	Page 108
3. Non-profit organizations	Page 108
4. Foundations	Page 108
5. Sponsors	Page 109
6. References and tools	Page 109
Chapter 13: Communication and Education	Page 110
1. Basic questions to communicate sustainable development	Page 111
2. What communication methods should you use?	Page 112
3. A few ideas	Page 113
4. Sustainable development education	Page 114
5. References and tools	Page 114
Chapter 14: Certification and Audits	Page 115
1. Certification	Page 115
A. ENERGY STAR	
B. LEED	
C. BOMA BEST	
D. FSC certification	
E. EcoLogo	
F. Event certification	
G. Fair trade	
H. Organic	

- I. Ecocert
- J. Green-e
- K. Green Globes
- L. ISO 14001
- M. Healthy workplace certification

2. Audit
